**FOR IMMEDIATE RELEASE**

DATE: 8/14/2020

**Passengers Possibly Exposed to COVID-19 on RCT**

Passengers who traveled on either the RCT Blue-Green line in Crescent City or the line from Front Street to Smith River any day between August 4 and August 12 may have been exposed to COVID-19. The positive individual did not have any interactions with others that fall within the guidelines for close contact; therefore the risk to others is low.

However, anyone who traveled this route between these dates should monitor themselves for the following symptoms of COVID-19: Fever, cough, shortness of breath, chills, sore throat, muscle aches, headache, loss of smell or taste, nausea and vomiting, or diarrhea. If individuals start experiencing symptoms, they should arrange for testing or contact their primary care provider and remain home.

For the most recent local COVID-19 information, visit [covid19.dnco.org](https://covid19.dnco.org).
